

CHIEF LEGAL SUITE

Sage Business Counsel is a modern business law firm based in Johns Creek, GA. For **10 years**, our principal attorney has fought for local and national businesses in Georgia courts. We excel in providing this type of support and, by fighting and winning hard but costly battles, we have found that sadly most small and mid-sized businesses lack adequate legal protections.

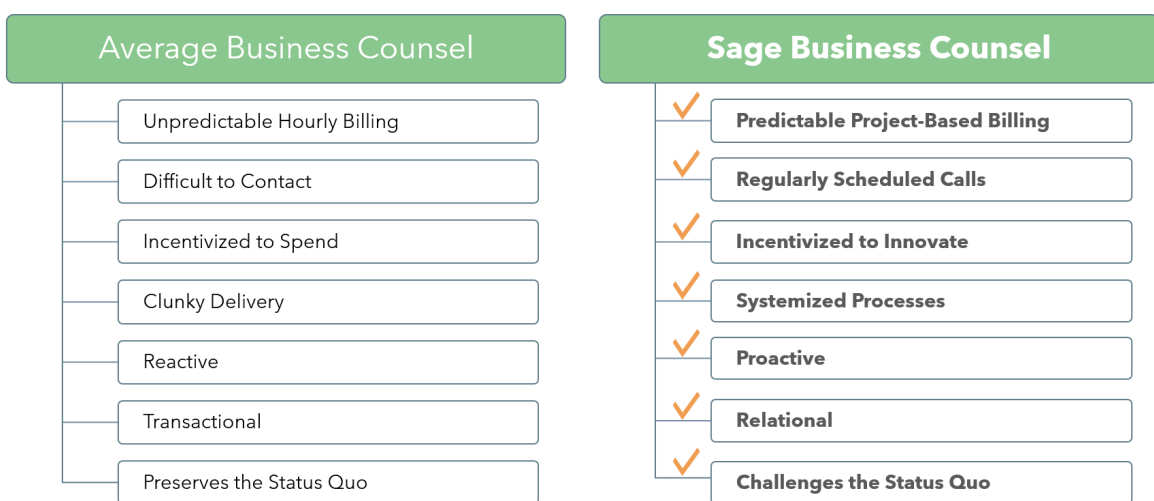

We recognized this **strong need** for small and mid-sized companies to develop a long-lasting relationship with a business attorney before devastating disputes arise and have developed our unique and innovative solution: the **Chief Legal Suite**.

Our **Chief Legal Suite** delivers strategic legal services to growing enterprises at a predictable, flat cost with measurable production deliverables over a 12-month period. By utilizing **The 5 Pillars of Sound Business**, we audit companies with a holistic view toward both profitability and risk mitigation. As part of the **Annual Vision Meeting**, Sage delivers to clients a **Business Risk Assessment** that informs the custom-tailored services produced under the plan.

Core Results Across the Enterprise

Sage Transforms 'Business Counsel' into Partnership

We work with growth-oriented businesses that desire operational compliance, peace of mind and ethical business practices. We love to partner with clients that understand the importance of bringing value to their employees, clients, and community.

Call **678-825-4525** or email info@sagebusinesscounsel.com to learn how a strategic relationship with Sage Business Counsel can foster growth for your organization.
